2 Reproducing this workflow

This workflow, is available as an interactive Rstudio notebook in the file `moiscrust.Rmd`. It is packaged with `renv` to facilitate reproducibility. To run it in your computer, please, execute first the code chunk below. You will need to replace `eval = FALSE` with `eval = TRUE` in the header of the code chunk.

```
{r, eval = FALSE} install.packages("renv") library(renv) renv::restore()
```
